Doreen Hendrickson: Meet The IRS Whistleblower Ignored By Corporate Media

By Shane Trejo, Civil Liberties Correspondent

Note: The Pontiac Tribune published another powerful article <http://pontiactribune.com/doreen-hendrickson-irs-whistleblower/> by Shane Trejo calling for justice and shaming the corporate media for its complete blackout of this travesty of justice that destroys the freedom of all Americans.

The silver lining to Doreen's terrible situation is that thousands of people have learned the truth about the nature of the income tax. They now fully realize the disgusting lengths that the federal government will go to prevent you from learning the truth—that unless your earnings are due to exercise of federal privilege, you are a 'nontaxpayer,' and the IRS can pound sand.

This Christmas, why not share the liberating truth of Pete Hendrickson's [Cracking the Code](http://losthorizons.com/Cracking_the_Code.htm) (http://losthorizons.com/Cracking_the_Code.htm) with those you love and care for.
