

Model 1st Principles' System

The 1st Principles grand jury system is intended solely to monitor, prevent, and punish gross misconduct or violations of a free individual's First Principles' rights by public officials (and accomplices).

An individual or public official may invoke—and by civic duty SHALL invoke—a 1st Principles' grand jury hearing, upon reasonable suspicion of a public official violation or act(s) of gross misconduct.

Juries are composed of impartial peers of complainant: nongovernment employees, randomly selected, pass simple knowledge test of US Constitution.

The complaint or petition shall be submitted to the sitting 1st Principles' GJ of the applicable jurisdiction specifying the:

1. offense (what, where, when)
2. suspect(s) (who)
3. evidence (how)

1st Principles' grand juries have full subpoena power and exercise ultimate authority over judges, prosecutors, and public officials (POs) during their session; they may empanel separate special grand juries for overloads or for unique cases. Jurors to be paid well from public coffers, e.g. the prorated salary of the chief executive for their jurisdiction.

Note: First Principles' violations are serious felony crimes. For example, any public official enabling civil asset forfeiture faces many years in prison.

Petit (trial) juries who receive indictments own justice in their court rooms and are the final judge of fact and law; may refuse to convict 'on conscience.'

Getting from Here to There

We the People already have the First Principles' authority to invoke and populate 'our' grand juries in whatever manner 'we' see fit. Let's effect our power as efficiently as possible.

W/O Confrontation

Example, Natl. Liberty Alliance (NLA): people—following proprietary 'God and Country' ideology—take over court-houses. Results have not been positive.

W/O Jumping Thru Hoops

Some propose referenda, changing state constitutions to enable special grand juries to judge PO oath violations. Too limiting. Too difficult. Too 'plays into the state's hands.' Don't ask for power; TAKE it. Assert what's already ours.

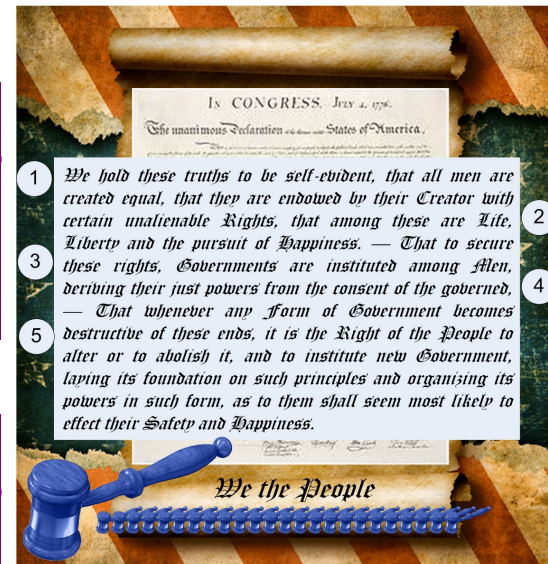

Negligible-Stress Jujitsu Strategy

Transition practice: Declare 1st Principles' GJ authority while submitting your complaint to the sitting GJ:

1. Form a group, write up complaint
2. Take en masse to the GJ, else to the head prosecuting attorney ('DA')
3. Notify the media of your complaint
4. If the GJ/DA agrees to hear the case, starts the wheel of justice
5. GJ/DA says no => media, virtual GJ Prelim Kelly Mordecai [GJ Project Plan](#).

10s of 1000s complaints, all invoking 1stP GJs. DAs, judges, POs must cooperate with successful indictments. Every PO who goes to trial is one more foundation stone for 1st Principles' GJs de jure.

We Hold These Truths...

American First Principles

The Declaration of Independence sets down the fundamental rules 'our people' live by and strive for... in the immortal words of Thomas Jefferson (&/or Paine). [Read the original formulation on the front panel of this brochure.]

Former mayor of Whitehouse, Ohio, Diane

McGilvery, has written the core 'common sense' book of our age, What is the Foundation?. This book breaks down American First Principles as follows:

1. **Natural rights** of the individual
2. **Equality** of individuals in law
3. **Government** solely to secure rights
4. **Just Powers** solely from The People
5. **The People's** right to fix/end govt.

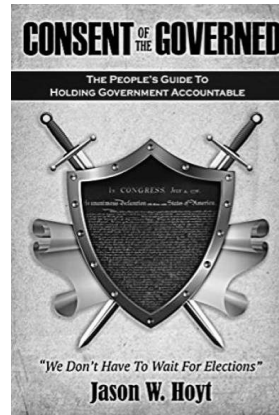

Watch and act like a hawk

No. 4&5 establish the authority of The People to DIRECTLY oversee government activity and to bring corrupt, criminal public officials to trial of The People.

In colonial times, People took day-to-day charge of government officials thru their nongovernment institution known as their **Grand Jury**.

Other Noteworthy Writings

Grand juries were second nature to The People in all of the 13 colonies—both as a **SWORD** against public official misconduct and as a **SHIELD** against abuse of an individual by the king's men. **INDIVIDUAL CITIZENS** usually brought the complaint to their jurisdiction's grand jury.

2015 book, Consent of the Governed, draws the Magna Carta and common law legitimacy for restoring our grand juries.

An excellent paper from a purely legal view is Roger Roots, "If It's not a Runaway It's not a Real Grand Jury." Then my own (in-progress) The Accountability Project.

And if the sitting grand jury dawdled, **INDIVIDUAL CITIZENS** would often just form a GJ of their own!

The investigation and indictment of bad officials was an 'open source' tool of the grassroots. A

What started me along the path of GJ reclamation is Kelly Mordecai's 2009, The Hidden 4th Branch, which explains the people's power in terms a child (or public official) can grasp.

To What Grand Juries Apply

The vision of my novel, The Truman Prophecy, is a world of peace, freedom, and abundance. That world requires people's restored independent multilevel everywhere (**PRIME**) grand juries to end 1) aggressions against ALL the people...

"High-Crime Assault" Priorities

1. Tax Lies—thoroughly exposed and remedied at the practical personal level by The Hendrickson Discovery
2. False-Flags—the 9/11 attacks/coverup and other major false-flag acts of state terror, many with deep-state, globalist architects
3. Toxic Skies—covert atmospheric aerosol spraying and electromagnetic bombardment of the ionosphere (**HAARP**); weather warfare
4. Frankenfoods—massive distribution of harmful genetically modified organism (GMO) crops to world populations
5. Fry & Spy—radio-frequency (RF) and dirty electricity now principally thru electric 'smart' meters: surveillance, health/safety violation
6. Sliming Baby—medical fascism, particularly via mandated vaccines that break immune systems and escalate the autism epidemic
7. 'Botting' Junior—compulsory state factory schooling, longtime affliction of the body politic, acculturating kids to prison-planet

[Links are to seminal books or videos.]

... and 2) daily public official acts of aggression (corruption) against individual Americans like you and me, e.g.:

- Shutting off power to 'smart' meter objectors
- Charging **VICTIMS** of police brutality w/crimes
- Judges maliciously taking away children, OR:
 - Continuing unfounded stalking charges
 - Refusing upon evidence to clear one's name
 - Imprisoning whistleblowers on public officials
- Exercising arbitrary, unchecked, total power

These I cover in my book. 1st Principles' GJs will ream corrupt officials 'A New 1.'
