

My Personal Millionaire X7 Business: A Dual-Edged Implementation

by Brian Wright

My method for the Millionaire X7 (MX7) business may be thought of as a dual-edged sword, with both edges working together to cut through the Barrier Cloud that limits most people's material and spiritual success in life... especially in these waning days of the "Old Paradigm."

The top edge is the product system itself, the James Lee Valentine world-standard motivational and empowerment "success system," and his stunning online business: mx7.millionairex7.com. The bottom edge is Peter Shanks' copyrighted innovative marketing system applied to the MX7 business.

Product Description

James Lee Valentine's 'Success System'

For fifteen years, Mr. Valentine has been a prolific author of personal empowerment books with more than 60 titles published. Through sustained effort, he has created a vast array of brilliant self-improvement literature and supportive media to enable each of us to be our best, including:

However, if you wish **to do** the MX7 business as well as **to use** the MX7 product, please turn the page.

Marketing Product Description

The Peter Shanks' MX7 Three-Who-Refer-Three Strategic Placement Marketing System

Successful entrepreneur and businessman, Peter Shanks reviewed the MX7 business, and noted that the MX7 enterprise seemed to lack a simple, specific repeatable script or marketing system to get the immensely valuable product suite into people's hands. He came up with three documents that lay out in simple, exact, repeatable, non-intimidating steps how to make MX7 profitable for real people:

- The MX7 SOLUTION to People's Everyday Financial Challenges*
- MX7 3-Down Projected Earnings Spreadsheet*
- What Do I Do First after Subscribing to MX7?*

Let me simply summarize the first document, *The MX7 SOLUTION*, which answers six simple questions that most people have when they hear about a multilevel marketing opportunity of this kind:

- 1) *MX7 requires recruiting people and I know nothing about recruiting people, so what practical cost-effective Solution is available to make up for my lack of know how?*

There is very little recruiting involved by anyone that joins our "3-Down" team, since our system is based on everyone agreeing to recruit only three people within one month of joining.

- 2) *Fine, the commission looks great; even so I do not believe I have sufficient selling skills to succeed with a network marketing company.*

Straight off the bat, there is no selling involved. Apart from the cost of printing this document and placing it in the hands of selected potential MX7 subscribers—people just like you—there are no marketing costs involved.

- 3) *In today's economy people are fighting a losing battle. How much can a subscriber realistically expect to earn in the first six months, the first twelve months?*

Ref. earnings sheet. Are you patient enough to be satisfied with just \$777 commission during month five and taking six months to earn \$2,235 a month, knowing that by month 14, with strict adherence to a our simple recruiting system, you can achieve \$13,000 a month residual income... with NO selling, virtually NIL marketing costs and little work involved?

- 4) *Many network marketing companies promise huge financial rewards and then fail to live up to their promises, so what **believable** Solution does MX7 offer?*

The MX7 automated online business system offers a 5 x 7 forced matrix payment plan. Forced matrixes are new to the MLM world and are becoming the most popular way to create a large monthly income online.

- 5) *What's great about the plan?*

The plan works and will most likely encourage you to subscribe and if not, then the next person will subscribe and if not, the next person will subscribe. Meantime it is costing very little time or money for anyone to continue passing this document to qualified people.

- 6) *Excellent, so how do Strategic Placement and the 3-Down strategy work?*

The 3-Down team is a team without an overall team leader. Instead, all 3-Down team members are the leader of their three level-1 people. As such they voluntarily agree **before joining the 3-Down team**, to give assistance and support to their three level-1 people at ALL times and for however long their three level-1 people remain as MX7 subscribers... which based on the income potential is likely to be for many years to come.

So that gives the reader a glimpse of the extraordinary Peter Shanks marketing system for MX7. Especially when combined with empowerment of the MX7 product itself, an MX7 subscriber will achieve residual earnings of \$6,000 per month after seven months with far less than 10 hours per week of steady effort. For a cost of a dollar a day, easily covered by your first three subscription commissions. Ask me for the full, free Peter Shanks' MX7 *Solution Package*, today not tomorrow (TNT).
