

26. Open Letter #2 to Former Classmates at SMW

March 20, 2021

The first open letter I penned (Stonebeam 18) was more indirect with allusions to *Invasion of the Body Snatchers*, and so on, and I buried it on the Facebook Group¹ page in a reply to someone else's rah rah posts. This one arises from a recent post in proud announcement of taking taken her 'covid' shots.

Actually, I'm sorry to hear of your decision, Jo Anne et al. And I hate to be the stubborn iconoclast throwing a wet blanket on what resembles a celebration for a friend who has just won the lottery:

This—these 'vaccines'—is an FDA-unapproved emergency genetic modification experiment and everyone who takes it is literally a test subject. The long term effects of these injections have not been determined. Previous coronavirus vaccine testing has been halted for safety reasons—the test animals virtually all died, particularly from what is known as ADE, antibody-dependent enhancement... where the immune system goes apeshit upon subsequent exposure to the virus or its analogs.

The CDC's VAERS reports a percentage of deaths 90 times greater for the 'covid' mRNA 'vaccines' than for the flu vaccine in 2019! And at roughly only 3.5 months we are not yet into the long-term effects. Dr. Mercola's fact-checked column gives a great deal of crucial data and matter for deep concern... at the following page:

- [articles.mercola.com/sites/articles/archive/2021/03/23/covid-19-vaccine-testing-on-children-dot.aspx](https://www.mercola.com/sites/articles/archive/2021/03/23/covid-19-vaccine-testing-on-children-dot.aspx)

A world-leading provax Bill Gates-funded insider, Dr. Geert Vanden Bossche, has issued a warning to his colleagues of a major species' catastrophe event to recipients' immune systems if these mRNA injections are not stopped. [I was chastised by Group members for bringing it up, so took down the link, but the deactivated link is here: thehighwire.com/videos/a-coming-covid-catastrophe/.] Other experts have disagreed w/ Dr. Geert's analysis, but WE AT LEAST MUST HAVE THE DISCUSSION!

Other key facts:

- 1) Your chances of full recovery from 'covid' are in aggregate ~99.76%.
- 2) Vaccine makers do not claim the injections will stop 'covid.'
- 3) There is no undo switch, no treatment for serious injury to you.
- 4) You cannot sue the shot maker for damages.
- 5) Other proven remedies exist for 'covid.'

Thus I implore with all my heart that people, especially my former classmates whom I've grown to be quite fond of, NOT take these injections and I cite just a handful of thousands of highly credentialed scholars and doctors who agree with me.

Finally, I want to present a scintillating presentation from Dr. Anne McCloskey of the Republic of Ireland who will not stand down against legacy forces of the Dark Side—self-appointed gods of the Great Reset. Her spirit is contagious, and I hope from what she says that my own countrymen remember, in their own souls, the Brave-hearts without which our own republic of Independents would not have been created.
