

35. Warm Christmas Message

December 21, 2021

Originally titled the One-Two Knockout Punch...

First the ecclesiastical part of the message from none less than the former Catholic Archbishop of the United States, Carlo Maria Vigano. This testament to the fundamental threats of the 'covid' op, the Frankenshots, and the "Great Tyranny" has been making the rounds in cyberspace and because it comes from a supreme authority figure in a major world religion, I expect it will have enormous effect.

From my Tweet: "It [the Archbishop's statement] stands a good chance to end the 'covid' contrived Mass Psychosis and proceed with prosecutions of those responsible for the FEARDEMIC and other crimes against humanity under the umbrella of the Great Reset [global full-spectrum tyranny]. Breathe Forward w/o 'THEM.'"

[Note: My own views of the problem are virtually identical with those of the archbishop... and I would say at least 40% (and growing rapidly) of the general population of the world. Which is good to know, since we truth tellers have often been regarded by family and friends as crazed iconoclasts to excommunicate or worse—be banned from joining in any reindeer games.]

The Second Punch—we have TWO men with courage making a majority... as shown in the image on the right—this one-two knockout comes from Dr. Peter McCullough, a working cardiologist, editor of a major cardiology medical journal, author, contributor of more peer-reviewed articles in his field than any other living physician—and generally pro vaccine, but certainly not the 'covid' shots. He's also the primary advocate of "early treatment," and his multi-pronged protocol for early treatment of 'covid' has saved thousands of lives... if it had been followed for all those who were reported to have died of 'covid,' it would have saved 85% of them.

Here is the full video of a 2:45-long interview with podcaster Joe Rogan, censored by YouTube but receiving 10s of millions of views on other platforms (I had heard upwards of 100 million views, total... so like the Archbishop's statement, the knowledge is currently sweeping the world and burying the censors):

I have taken the time to transcribe key portions of what Dr. McCullough states:

https://bit.ly/3Eozd7W_Transcribe_McCullough_from_JRE. By the way, Dr.

McCullough identifies four major books that complement his and the Archbishop's presentations:

- Dr. Pam Popper: *Covid Operation, What Happened, Why It Happened, and What's Next*
- Dr. Peter Breggin: *Covid 19 and the Global Predators*

"One Man with Courage Makes a Majority." – Charles Lindbergh

- RFK, Jr.: *The Real Anthony Fauci*
- Scott Atlas: *A Plague Upon Our House: My Fight at the Trump White House to Stop COVID from Destroying America*

Several other courageous doctors and researchers worldwide have pointed out the mass murder intent of the Frankenshots and lockdown measures.

So basically we have the one-two knockout punch of the FEARDEMIC, and, yes, a very large percentage of the population was taken in by the highly organized and pre-planned deception by a particularly devious global syndicate of sociopaths. We pretty much know WHO these individuals and accomplices ARE, so the general plan that seems to be coming together is to bring these individuals to justice. Here is the latest attempt before the International Criminal Court:

Which all leaves what do we do to humanely deal with the carnage created by these individuals and for those who under false pretenses or coercion were led to allow themselves and their children to be injected with poisonous zero-liability chemical compounds?

- First, we have to hard stop all 'covid' mass 'vaccination' programs NOW.
- Second, hope for the best. Dr. McCullough and others seem to believe that innate human resilience and the Bell Curve will keep the death numbers from unprecedented genocidal proportions. [Others, like Dr. Zev Zelenko (founder of the life-saving HCQ-zinc protocol), have doubts: <https://bit.ly/2YCF3mJ> Zev Zelenko Interview on Highwire.] There's also reason to believe many of the earlier lots of injections were placebos.
- Third, launch a massive global "Marshall Program" to find antidote(s) to the shots. I have put together a preliminary list for potential shot cures here: <https://bit.ly/2YMZ9ux> Cures for Frankenshot . It's a drop in the bucket at this point, but can be helpful for those who have moderate symptoms of 'vaccine' poisoning. I anticipate a raft of global experts to lead this effort.

So, yes, what we're seeing here is an urgent need of a bold paradigm shift, and I'm contacting all the people I know and care for with the reasoning behind it.

From my own thinking in general on human consciousness, I believe it's an absolute imperative to leave collective-brain syndrome behind us and proceed to full Independent consciousness in benevolent community. I've worked out a schema to accomplish that, which appears as a pinned, threaded Tweet on my Twitter page here: <https://bit.ly/3II5NKZ> bw Pinned Tweet.

Many Independents exist with differing perspectives and are allied to what I'm aiming toward. The main deal now is to unite with the spirit and direction invoked by Archbishop Vigano and restore our humanity, liberties, and divine purpose worldwide. Please join with me now, rise up and put an end to the collectivist nightmare unfolding in the mass psychosis.

With love,

Brian R. Wright
