

Justice

was salvageable. He discovered that three of his laptop computers were missing along with all their camera equipment and external data storage devices among other things. These items were simply stolen by the police [TVCO7s]

In 2016 Ted moved his family to Bay County and became licensed by the state of Michigan to possess, cultivate, and assist Registered Qualifying Applicants as a medical marijuana caregiver. He had a small-scale operation in the summer of 2016. He discovered he was not just good at growing medical marijuana but was great at it and scaled up operations in 2017 and grew 72 plants outdoors in an enclosed locked facility according to legal requirements.

On October 17, 2017, Ted's \$750,000+ medical marijuana crop was stolen by police [TVCO8s] based on fabricated evidence and a false affidavit. The raid occurred at his home in Pinconning by 60 officers. They also attempted to take custody of his child and held Ted in jail without bail for 56 days, while denying him participation in his own defense.

Ted believes that the raid on his property was executed to prevent him from having the financial means to seek redress for the crimes of the police and directing-accomplice public officials in 2010 and since.

To compound his problems... Ted has been entered as a targeted individual into a secret database created in an unsigned, anonymous Officer Safety Caution manufactured by the Michigan State Police in conjunction with the Michigan Intelligence Operations Center that claims that no appeal or rebuttal process exists making the Officer Safety Caution a final judgment.[TVCO9]

No Way to Keep Up

In 2018, Ted has been forced to endure being the Defendant in a criminal trial where the Bay County Prosecutor will not furnish him discovery as ordered by the court and his motions to dismiss will not be heard.

Ted was using Facebook to keep friends and family notified of things going on in his struggle: (<http://www.facebook.com/ted.visner>).

From a letter, this was his status late 2018: http://brianwright.com/TV_Ltr.pdf.

Latest

At every step of the process of the railroad-ing of Ted Visner, his absolute right to invoke and effect a grand jury of his peers has been abrogated. We have a situation of runaway corrupt government that is literally kidnapping civilians it doesn't like or from whom it steals property and needs to keep silent.

Fast forward now to late April 2019. Ted has been sent to Jackson Prison. Mailing address...

**HON. TED VISNER, #526348
PARNALL CORRECTIONAL FACILITY
1780 E. PARNALL ROAD
JACKSON, MI 49201**

His term is roughly another year—his phony crimes all without victims. That is, unless you consider public officials as potential 'victims' of exposure by Ted of their bona fide criminal acts of coercion and aggression.

Write to him. He knows others in the same kind of boat he's in, same phony crimes, some carrying unbelievably atrocious terms in jail. He's trying to help them, too, while fighting for his own rights and dismissal of prosecution.

Idea: People's independent grand jury: Free inmates who have not committed aggression.

TED VISNER
AMERICAN HERO AND MICHIGAN
POLICE-STATE VICTIM DU JOUR

Brave Heart vs. State Tyranny

Who is Theodore Joseph Visner?

The voice of Christmas present and all those to come, the hope and focal point for victims of public officials running amok all over the late great state of Mississippi... and for the rest of the country, perishing from self-inflicted loss of their First Principles[2]—life, liberty, and property.

To this humble columnist, Ted seems to have gotten the ultra royal shaft by local kangaroos of the foulest character and currently sits in their Bay County kidnappers' compound, having been convicted by an insider-drone jury, then in the early days of December 2018 sentenced to two years of state time on bogus firearms charges.

Dragonslayer, continued

I think.

The problem is that I don't have phone access to Ted, so I have to try to get the details of his situation thru his girlfriend(?), Dani, who lives understandably 'beside herself' with their young 'un in Pinconning. Latest info: Coffee Coaster column, here. [Info for late 2018.]

For the time being, while Ted remains in Bay City, you should be able to send to him a postcard or a letter—mine got thru—it has to be black or blue ink on white paper and white envelope: Send to Honorable [:) my own special title for good people who are not public officials; you can just use 'Mr.'] Ted Visner, 503 3d Street, Bay City, MI 48708. The problem is that I don't know exactly where they are in the process, and he may be going to state for 30 days, then elsewhere, awaiting appeal, transfer, etc. Dani also mentions that you may set up an account at securstechnologies.com and connect with him that way, for how long I don't know. His name is Theodore Joseph Visner, and I provide a Facebook page address below as well. It would be great if he got an avalanche of Christmas well wishes. I believe his email address, mijusticeleague@gmail.com, is still monitored by Dani.

Back Story, the Real Reason...

... they've made Ted Visner into a targeted individual and, unintentionally, Michigan folk hero.

Somewhere in 2017, on orders from above, a pack of official mid-Michigan gangster-muscle [drooling, steroid-junkie bandits disguised as police] 1) seized Ted's lucrative, legal medical marijuana crop, then 2) used CAF (civil asset forfeiture) to take all the good stuff from his family's belongings, and divvy up the proceeds among themselves.

Apparently it's a major industry up north these days seizing medical marijuana crops and their owners' personal property to pay the bills of local government...

What's Going in 'the Book'

US Navy veteran, entrepreneur/jack-of-all-trades, Ted Visner was minding his peaceful family life and business in mid-Michigan, when in 2010 he witnessed a Kent County sheriff's deputy [TVCO1: Ted Visner corrupt official #1] 'robosigning' sheriff deeds [such creation of a counterfeit instrument is a 14-year felony]. One of these bogus deeds was used to steal a property from Visner's parents in East Grand Rapids, Michigan, on April 15 that year.

“What’s yours is ours.”

The counterfeit deed was then used by a Grand Rapids Lawyer [TVCO2] to take physical possession of the property in a totally unlawful manner. This home had over \$120,000 dollars of equity.

Five months after the first home was stolen in East Grand Rapids, a second home was stolen at 829 E Walton Rd in Mount Pleasant Michigan by the Isabella County Sheriff's Office using a fake eviction. This home along with it's contents was stolen by members of the Isabella county sheriff's office [TVCO3s] on the weekend of September 27, 2010. Ted was arrested and thrown into jail for calling 9-1-1 to report the crime.

Ted ran for Isabella county sheriff in 2012 during which time he was denied a permit for a concealed pistol license in his application to the same Isabella county that had taken the second home with a fake eviction. In the denial letter Ted was called suicidal and homicidal, a threat to himself and others.

In 2014 his girlfriend's three children were taken by Child Protective Services (CPS) without a court order and although the petition to take her children was ultimately denied by the courts in Isabella County, her children were never returned to her.

In helping her with this process Ted discovered that the Michigan Supreme Court had created Michigan Court Rules (MCR) and in particular a rule that deprives respondent parents in CPS cases of due-process rights. Specifically MCR 3.920(H)

Shortly after going public with this critical information two supreme court justices stepped off the bench and Ted's family home in Blanchard, Michigan, was raided by more than 40 police while no one was on the premises... ironically, the GTPO (grand theft by public official) occurred on Constitution Day, September 17, 2015. All of his family's belongings were stolen or destroyed.

The raid took place after another fake eviction process in Isabella county. This process occurred when he and his wife were summoned to court as named defendants in eviction proceedings to be told by Isabella County judge [TVCO4] that the Visners did not have standing and could not defend themselves. Subsequently, Ted was later put on trial in Isabella County for trespassing in his own home after spending eight days in jail.

At his criminal misdemeanor trial he witnessed the judge, [TVCO5] and the Isabella County prosecutor [TVCO6] tamper with the jury by stacking it and taking away Ted's juror challenge rights as a matter of public record.

It was during this attack and raid upon his family's Blanchard, Michigan, home where everything they owned was thrown into seven 30-yard dumpsters and hauled 40 minutes north to someone's personal property where Ted had to dig through them for days recovering what
