

Reports

This document accompanies the advance copy of GNL Quickstart Operations Guide. The intent of the document is to show individuals interested in the Good Neighbor Libertarian (GNL) movement-project the core documentation that incoming GNLs will typically use as they pursue their chosen POB (public official body)-Issue.

What remains to be written is the general procedure and organizational or project context that will give the reports meaning.

Basically, you as a new GNL decide what issue and what public official body you want to attach yourself to. You make a commitment to show up and to report on your activities back to the Michigan Libertarian affiliate organization.

What I'm showing here is for an individual Karl Jackson who has chosen simply 'government corruption' as his issue at the POB of the Madison Heights city council.

DESC-OF-ACTIVITY-RE-: EVENT-(<100 WDS) □	This week I discovered that Mayor Jones had been part of kickbacks of tens of \$thousands for sports arena construction. Got to know CM Smith, sent him Metro Times expose, which she thanked me for and said she would pursue. Believe she is bringing up with other sympathetic CMs. Plan for next week to interview reporter who broke the story for possible grand jury referral. Did some study on the laws and practices governing city contracting. □

The system uses a point count basis for measuring monitoring and success. It will be refined as time goes on, and computerized. These reports are a sequence of manual recordings of the GNL who has made a level 1 commitment of 4 hours per month. You see the value placed on showing up, that I will probably make higher, because I wish to stress body count above other qualities at the beginning.

POB-T-Monthly-Summary-Points-Report
MAD1-13:-October-2014

Date	GNL-Name	Points
20141008	Brother-Karl	1.0
20141022	Brother-Karl	6.5
	Sister-Sue	2.0
Sum-Above	Body-Count: 2	9.5

The second report above is a summary of points for a POB for the reporting period.

Monthly-Summary-Points-Body-Ct.-Report-Oakland-County-Affiliate:-October-2014

Threat/POB	Novi	Novi-SB	Mad-Hts	Troy	Wixom		State	Fed	Total
01: Mon-Mon									
02: At-Spray							20-4		20-4
03: Fals-Flg								100-6	100-6

etc.									
Totals	10-1	15-1	29.5-3	20-3	5-1		70-8	140-8	289.5-25

The third report is what the affiliate will keep and fill out. Eventually, these will be computerized and Webified, but we want to get started manually, because that will point out any needs to make modifications to report fields, and to set up a solid system structure.

First roll out is to local POBs, after which we will have a report and point count system for county, state, and federal issue-POBs, which will take a different approach, since they do not meet locally or at intervals, but may be considered always ‘on the job’ (of destroying our liberty)☺ .

The GNL system will be launched as a pilot in Michigan with the LP of Michigan, probably using the SW Michigan affiliate and the Oakland County affiliate as first adopters. GNL will be implemented as a project of the affiliate, which will anticipate to be supported by the state party.

You can see how simply going through the presentations of each GNL activist—I think I’ll give them designations Moonbeam (4 hrs/mo), Sunshine (8 hrs/mo), and Starchild (12-20 hrs/mo). The Sun by the open door is as good an image as any in general, and we will shoot for GNL activists to commit at the Sunshine level. Anyway, the reports form the basis of presentation.

Affiliate GNL leaders/coordinators track and suggest deployment of future GNLs, every GNL has a mission to recruit at least two GNLs per year. We’ll keep track and give ‘Sunshine’ awards based on POB success points, but especially on numbers of active GNLs recruited.
