

The Snowden-Manning Meme

The Snowden-Manning Meme serves the broader objective of Americans coming to full consciousness as Independent beings... and thus asserting themselves as such politically. [The full process of liberation is revealed in Brian R. Wright's The Truman Prophecy and two followon practical works: Independents' Field Manual and The Spiritual Magic Move (aka The Joy Spot).]

The Engine

Thus the SM20 campaign aims to spread the world reality of truth, justice, and liberty via a popular symbolic gesture of defiance... of the Globalist 'Death Star' and its many high-crime assaults on the people. The steps:

1. Go to the site Snowden-Manning.org.
2. Convince yourself of the validity of the program.
3. By a bumper sticker (or several).
4. Tell your friends... like this:
 - a. First, display the bumper sticker; this will draw many to the site to repeat the process.
 - b. Insist on the SM20 political program to your federal candidates.
 - c. In social media leave reference to <http://Snowden-Manning.org> and its 10-point justice program.
 - d. Share this three-fold brochure.

Inspired by American Heroes

Edward J. Snowden is a former CIA computer consultant who allegedly leaked information of multiple activities of unconstitutional NSA spying. On June 21, 2013, the US Justice Department unsealed charges against Snowden of two counts of violating the Espionage Act of 1917 and theft of government property. He flew to Moscow, Russia, and was granted one-year asylum, which was later extended to three years. As of 2015, he was still living in Russia while seeking asylum elsewhere.

Chelsea Manning (born Bradley Manning, December 17, 1987) is a United States Army soldier convicted in July 2013 of violations of the Espionage Act et al, after disclosing to WikiLeaks ~3/4 million documents showing US government torture, massacres, and other heinous crimes against humanity. She is serving a 35-yr. sentence at Leavenworth.

In other words, Ed Snowden and Chelsea Manning are whistleblowers exposing violent crimes and atrocities of the United States' runaway, corrupt rogue government. They are heroes who deserve not only exoneration but ticker-tape parades.

When reporting a crime is committing a crime, the country is run by criminals.

Lend a hand toward ending the assault and harassment of these two fine men and creating a viral meme to restore justice to our world.

The Political Program

The Snowden-Manning campaign was initially conceived by Brian R. Wright (author of The Truman Prophecy) as a write-in alternative in the 2016 presidential election year. But he soon decided that the campaign should be a general political program—laying out a set of actions for all liberty-oriented political candidates to endorse:

1. **Expose federal crimes:** Proceed to clean house by full exposure and disclosure of government-official felony crimes. Special Snowden-Manning note: Revealing government-official felony crimes shall not be a felony crime.
2. **Indict federal criminals:** Fully empowered grand juries shall be restored, empaneled by judges, upon citizen-complaint, to investigate and indict criminal activity by government officials and associates.
3. **Restore the innocent:** No one who has not aggressed upon another person shall be prosecuted, convicted, or imprisoned by government. Release those who have been so harmed, expunge their records, provide restitution.
4. **Hard stop Big Brother:** Immediately deactivate and defund the DHS, NSA, CIA, TSA; repeal the Patriot Act and indefinite detention of the NDAA, indict all officials (for high treason) who enacted such unconstitutional acts.

5. **Shut down the Empire:** Reduce military spending 50%/yr. for 10 yrs.; destroy weapons of mass destruction, multilaterally, with the US initiating the process; demilitarize/ defederalize US law enforcement; strictly adhere to posse comitatus; end the empire.
6. **Enforce the Constitution:** Prosecute (those committing) unconstitutional executive orders, due process violations, war crimes, illegal surveillance, drone strikes on civilians, mass imprisonment, and mass murder. (Etc.)
7. **End high-crime assaults:** Urgently bring before empowered grand juries all parties to suspected high-crime assaults: geoengineering poisoned skies, GMOs, forced medicine, 'smart' meters, 9/11 and other false-flags, staged massacres, etc.
8. **Defund tyranny:** Per uncontested federal law, nonprivileged direct earnings are not income. Stop paying tax on them, NOW! Read Pete Hendrickson's book, Cracking the Code, and quit handing to Leviathan the hammer forging your chains.
9. **Revive honest living:** End monopoly central banks and assess owners for reparations; release wealth-generating bonanza of productive humanity from cartel chokehold; withdraw state privilege from corporations worldwide.

10. **Apply First Principles:** Per the Declaration of Independence, rights are accorded by Nature and valid governments require voluntary consent. We the people may nonaggressively opt out of rogue states, individually or en masse.

These steps are discussed and elaborated on the SocietyofIndependents.org (SOI) Website. The SM20 political program—along with fully empowered people's grand juries—is a part of the 'Dorothy' or justice

THE TRUMAN PROPHECY

phase of the Truman Prophecy. The novel is pictured here, and may be obtained on Amazon or thru the SOI site. The Truman Prophecy is a spiritual-political novel inspired by real events and applying en masse the metaphor of the 1998 movie, The Truman Show—where the principal character discovers he's being manipulated without knowledge or consent in a wholly artificial world for the benefit of others. Like Truman Burbank in the movie, we humans shall break free... and imminently.

The process for creating the Snowden-Manning 'meme' and turning it viral is described on the subsequent two flaps of this brochure. Also ref. Snowden-Manning.org.
