

### 31. Countering the Mass Psychosis 'covid' Op

August 10, 2021

This Stonebeam is triggered by an outstanding little sketch-video that came my way today, put together under auspices of FrontLineDoctors.org and a group of artists known as Academy of Ideas. The title is "A Killing of the Mind," and the subtitle: "Mass psychosis: How an entire population becomes mentally ill." It's no secret to whom the psychosis applies today, though the sketch lets you draw your own conclusions.

The creators make a special point of the 20th century total-state communist and fascist societies (and by implication the militarist-collectivist Allied states who used the world wars to build the structure of the globalist New World Order). But it's the reference to the witchhunting hysteria in 16th and 17th century Europe (and in the American Massachusetts colony) in the late 1600s that is such a perfect fit to what is happening today.

What we're seeing with the 'covid' op and the Great Reset attempt is "The Great Snipe Hunt Followed by the Great Witch Hunt"—manifestly the most dangerous and comprehensive PRC-triggered assault on reason and Independent consciousness in human history. Comparisons to the devastation and deaths of a WW3 are not exaggerated. One has only to watch this recent suppressed video showing Dr. Vladimir Zelenko, creator of the life-saving Hydroxychloroquine Protocol (85-90% effective to prevent 'covid' hospitalization) in conference with Israeli health ministers.

Dr. Zelenko doesn't pull any punches: He calls the 'covid' injections "poison-death shots" and says those who want to push them on children are "advocating child sacrifice." He cites the alternative or so-called early treatments, which are actually cures, for serious 'covid' symptoms and how they have been suppressed (because they interfere with the genocidal objectives of the mass 'vax' program(s)). He calls Israel a leader in this crime against humanity. [Ironic.] His data sources are impeccable, and a transcript of his video should be mandatory for all public officials.

If you need another recent and credentialed demolition of the legitimacy of the 'covid' so-called vaccine, this one starts from a 2+2=4 foundation and explains the current reality in term a child can understand. It takes the "18 Reasons I Won't Be Getting a Covid Injection" article from Christian Elliot and wraps an audio-visual bow around it. Please share with your friends:

The latest government data is all anyone needs to know re: the poison-death shots [there's an insider at CDC claiming that 45,000+ shot-deaths have been concealed]. C-shot deaths extrapolate to three times the deaths from all vaccines. The head of the CDC says it leads to "covid' of the 'vaxxed.'" End of story.
